Memorias de Neil Young: El Sueno de Un Hippie Neil Young

Legendary singer and songwriter Neil Young's storied career has spanned over forty years and yielded some of the modern era's most enduring music. Now for the first time ever, Young reflects upon his life from his Canadian childhood, to his part in the sixties rock explosion with Buffalo Springfield and Crosby, Stills, Nash & Young, through his later career with Crazy Horse and numerous private challenges. An instant classic, *Memorias de Neil Young* is as uncompromising and unforgettable as the man himself."

Review

Elliptical and personal "Waging Heavy Peace" eschews chronology and skips the score-settling and titillation of other rocker biographies. Still, Young shows a little leg and has some laughs . As the book progresses, the operatics of the rock life give way to signal family events, deconstructions of his musical partnerships and musings on the natural world. It is less a chronicle than a journal of self-appraisal. "David Carr, "The New York Times, on the English-language edition"
